RE: Huntington Memorial Hospital proposed Master Plan A & B Annex buildings

Dear Dr. Morgan:

Although the decision to reduce the Annex height was made by Steve Ralph before you assumed current management, your desire to form relationships with the community and the WPRA has been noticed and appreciated. For the record, the WPRA approves the revised two-building west annex design of lower profiles, sustaining a more “neighborhood friendly” size and massing. We believe this modification will benefit all stake holders and the city at large.

Respectfully yours,
